* Le document débute avec le **Dr. John Campbell** qui nous rapporte les chiffres de l'OECD sur la surmortalité importante et "inexpliquée", essentiellement dans les pays développés en 2021, 2022 et 2023, et qui n'est pas attribuée au COVID-19., sans être rapporté par les médias.

Sommes-nous trop sur Terre? Et si oui, comment réduire la population mondiale?
(<https://odysee.com/@AmiDesPeuplesPremiers:d/Comment-r%C3%A9duire-la-population-mondiale:1>) Depuis quelques décennies, un certain groupe de penseurs, tous proches du Forum Economique Mondial (World Economic Forum), a émis diverses opinions plus ou moins radicales voire révoltantes à ce sujet, de Jane Goodall à David Attenborough en passant par Dennis Meadows et le Prince Philippe qui, lui, n'y allait pas par quatre chemin: «j'aimerais me réincarner en virus mortel... parce que nous sommes "trop" sur Terre».

Les méthodes proposées par les élites pour cette dépopulation sont multiples:

- l'alimentation (nourriture industrielle contenant des additifs toxiques, résidus de pesticides de l'agriculture non-biologique et Organisme Génétiquement Modifié-GMO food),
- l'eau (qui comprend du fluorure ou nanoparticules de plastique <https://fluoridealert.org/articles/50-reasons/> + <https://www.pnas.org/doi/10.1073/pnas.2300582121>),
- les "vaccins" et certains médicaments de l'industrie chimique pharmaceutique,

- les guerres
- les famines organisées,
- la destruction de l'économie, appauvrissant la population pour qu'elle ne puisse plus se nourrir autrement qu'avec de la nourriture industrielle bon marché et empoisonnée et qu'elle ne puisse plus avoir les moyens financiers pour accéder aux soins de santé (inflation organisée et augmentation des prix des énergies faisant déposer le bilan à certains commerces et accroissant le chômage).

The Myth Of Overpopulation

* <https://odysee.com/@AmiDesPeuplesPremiers:d/Overpopulation-the-making-of-a-myth:a>, regardez les 6 vidéos en fin de page de ce site: <https://www.pop.org/overpopulation-myth/>

«Overpopulation doesn't cause pollution and lack of resources. Capitalism which requires ever increasing profits is what causes that. Permaculturists say we need MORE people. Every person can help transform deserts into rainforests». La pauvreté des pays du tiers monde n'est pas la conséquence d'une soit disante surpopulation mais de guerres organisées ou de corruption des élites. Les dirigeants des pays du tiers monde maintiennent cette pauvreté pour avoir une main d'œuvre bon marché dans leurs industries et augmenter leur profits.

Admettons que nous soyons 9 milliards d'habitants sur la planète. Si nous disons que la taille moyenne d'une famille est de 4 personnes, le nombre de familles serait alors d'environ 2,25 milliards. Le Texas fait environ 700,000 km² soit 700 milliards m² donc les 2.25 milliard de famille de 4 personnes pourraient vivre au texas disposant chacune d'une maison sur un terrain de 300m² environ pouvant leur servir à cultiver un petit potager biologique. Ce n'est qu'une représentation exagérée, tout le monde ne vit pas dans des maisons, beaucoup vivent dans des immeubles, laissant ainsi plus de place à l'agriculture.

La prise de conscience et le franc-parler sont nos meilleures armes pour contrecarrer ce programme de dépopulation. Par conséquent, je vous demande de transmettre ce document au plus grand nombre de personnes possible, surtout aux militaires et forces de l'ordre dont la première tâche est de protéger le peuple et non les intérêts extra-nationaux des élites criminelles. Ou, au moins, écrivez votre propre version de ce contenu et diffusez le largement: <https://www.pop.org/overpopulation-myth/>

Toutes les citations ci-dessous affirmant que nous sommes trop sur terre à cause de la pollution que nous engendrons, sont fausses car:

1) Les êtres humains ne sont pas des polluants en soi; ils sont biodégradables comme les autres espèces animales après la mort. Le problème de la pollution n'est donc pas le nombre d'êtres humains sur la planète mais ce qu'ils font de leur environnement (déchets plastiques, pesticides, engrais chimiques, 5G, déforestation, technologies tel que les smartphones ou les véhicules utilisant des batteries lithium-ion...). Ces facteurs de pollution proviennent des industriels et des élites eux-mêmes, notamment par exemple en nous incitant à consommer toujours plus de choses par le biais des publicités, en nous faisant croire que pour être heureux nous avons tous besoin de ces technologies tel que le smartphone (processus de fabrication des composants électroniques, des batteries et recyclage très polluant à cause notamment des batteries) .

<https://www.instituteforenergyresearch.org/renewable/environmental-impacts-of-lithium-ion-batteries/>

Cette technologie leur sert et leur servira d'outil indispensable pour le contrôle de l'humanité en abettissant les jeunes avec les jeux vidéos ou les vidéos stupides sur TikTok, en manipulant l'esprit des gens par des informations contrôlées par les élites sur Google, Youtube ou Facebook, en s'immisçant dans la vie privée des gens (suivre leur déplacement et connaître les intérêts des utilisateurs). En outre, ces smartphones seront utilisés plus tard comme moyen de paiement grâce à une monnaie mondiale digitale unique en scannant des QR codes.

Par ailleurs, ils prétendent que les véhicules thermiques sont la cause du réchauffement climatique pour mieux exercer leur contrôle sur l'humanité et en profiter pour en augmenter les taxes. Cela leur permet de s'enrichir en appauvrissant le peuple. Si les véhicules thermiques étaient l'une des causes du réchauffement climatique alors pourquoi n'imposent-ils pas les véhicules à air comprimé dont la technologie existe et est opérationnelle depuis

au moins vingt 20 ans ? (on y voit ironiquement, depuis 2018, le logo du WEF et de l'agenda 21 ou "vision", sur le site de l'ingénieur pour faire croire qu'ils s'y intéressent, mais en réalité ils ont bloqué le développement dudit projet. <https://www.mdi.lu/>). Parce ce qu'ils préfèrent les remplacer par des véhicules électriques tout aussi polluants pour continuer à enrichir les élites en nous faisant payer le prix fort de l'électricité, plutôt que de développer des solutions énergétiques moins coûteuse tel que le moteur magnétique (énergie libre) ou le moteur à air comprimé lien ci-dessus, énergies qui ne rapporte rien aux états, aux lobbies du pétrole et aux élites. Ces véhicules polluants leur donnent une excuse pour contrôler l'humanité et mettre en place un régime totalitaire.

2) Le réchauffement climatique par le Co2 qui serait dû à l'activité industrielle humaine est basé sur de fausses recherches scientifiques que les élites utilisent pour faire croire à la nécessité de contrôler ou de diminuer la population mondiale. Dans les années 70 ils alertaient sur le refroidissement climatique 😊. (*voir PARTIE 12 du document "Tribunal International" <https://bit.ly/3kvfaqB> aussi recopié à la fin de ce document page 26)

Les écologistes accusant les humains de tous les maux se trompent de cible ou se font eux-mêmes manipuler par les élites, qui elles sont la vraie cible à éliminer. Les élites et leurs industries sont les vrais responsables des problèmes écologiques car elles veulent continuer à s'enrichir en favorisant la société de consommation. Elles veulent continuer à prospérer en continuant à utiliser des technologies polluantes. Elles veulent remplacer le véhicule à pétrole par des véhicules électriques qui ont une empreinte carbone très grande (la production et le recyclage des batteries en fin de vie ont un impact environnemental très important) <https://www.instituteforenergyresearch.org/renewable/environmental-impacts-of-lithium-ion-batteries/> Elles préfèrent donc réduire la population mondiale plutôt que de lancer des projets non lucratifs mais réellement écologiques tel que la production des moteurs à air comprimé <https://www.mdi.lu/> A votre avis, pourquoi les élites ont-elles bloqué ce projet tout en expurgeant le site de plein d'informations techniques intéressantes telles que la rubrique "vidéo" qui mène vers leur site Youtube ? (📺 <https://www.youtube.com/user/mdi06/videos>) Car on y trouve, entre autres, le projet Airlab permettant à la population d'être indépendante énergiquement sans pollution carbone, plus besoin de batteries polluantes et coûteuses à l'entretien pour le stockage de votre énergie solaire à domicile! *📺 <https://www.youtube.com/watch?v=wpjP-6woAR4> (le site avant la prise de contrôle du WEF: <https://web.archive.org/web/20160221214608/http://www.mdi.lu/2014%20produits.php>), une énergie qui ne leur rapporte rien, l'air se trouvant tout autour de nous! On y voit malheureusement depuis 2018 les logos de l'Agenda 21 ou "vision" et du World Economic Forum ainsi qu'une vidéo de présentation de propagande avec des gens masqués. Mais je ne crois pas que l'agenda 21 et le WEF vont lancer le projet à grande échelle, ils veulent juste se donner bonne impression en se faisant de la publicité, ils ont aucun intérêt à lancer ce projet. Avez vous entendu les médias mainstream en parler? Non! Regardez le nombre de personnes ayant visionné la vidéo sur Youtube, 1224 vues seulement au janvier 2024, 3 ans après la parution de la vidéo! Ce projet écologique est contraire à leur programme de contrôle de l'humanité car il ne pollue pas, donc impossible de limiter les déplacements des propriétaires sous prétexte du co2, impossible de ruiner le peuple avec des factures d'électricité toujours plus importantes ou leur future taxe carbone. Tout leur plan de contrôle de l'humanité élaboré depuis des décennies, sous prétexte du co2 (https://report24.news/persoeliche-carbon-footprint-tracker-das-wef-will-unsere-totale-ueberwachung/?feed_id=35910), échouerait et les procès pour crime contre l'humanité pourraient commencer. Pourquoi choisissent-ils les véhicules électriques? Car l'électricité sera un moyen de contrôle et permettra à l'élite de s'enrichir en augmentant le prix de cette énergie. Par la suite, ils pourront empêcher les gens de se déplacer en coupant leur moteur géré par un ordinateur de bord connecté https://web.archive.org/web/20240130094736/https://www.frandroid.com/comment-faire/1348763_boites-noires-dans-les-voitures-a-quoi-servent-elles-comment-fonctionnent-elles , dans le cadre du crédit social ou d'une nouvelle "pandémie".

Nombreux sont ceux parmi l'élite mondiale qui sont véritablement convaincus que nous gâchons « leur planète » et ne veulent plus que nous soyons si nombreux. Grâce à la technologie, ils n'ont besoin que de quelques centaines de millions de personnes pour faire fonctionner leur système, et ils considèrent le reste d'entre nous comme des « mangeurs inutiles ».

Parce qu'ils sont riches, ils pensent avoir le pouvoir de décider qui doit mourir et qui doit vivre. En fait, les élites, une fois qu'elles se sont suffisamment bien servi de nous (les peuples) pour s'enrichir, décident de nous exterminer.

Consommez, payez vos impôts, vos taxes et taisez-vous!

- **Thomas Malthus**, (***Malthus a eu onze enfants**), clerc et démographe anglais du XIX siècle, il disait que trop de gens utilisent trop de choses. «La mort prématurée doit d'une manière ou d'une autre frapper la race humaine». 1798 He argued, «the power of population is indefinitely greater than the power in the earth to produce subsistence for man.» He suggested that human populations grow at an exponential rate, meaning the population climbs at a rate that is constantly increasing. However, the availability of resources in the environment increases at only an arithmetic rate, which

means that left unchecked human populations would soon outstrip the environment's ability to provide sustenance. Malthus famously argued that war, famine, and disease were "good" or at least "functional" in the sense that they kept populations from growing too large.

We are bound in justice and honor formally to disdain the Right of the poor to support. «To this end, I should propose a regulation to be made, declaring that no child born from any marriage taking place after the expiration of a year from the date of the law, and no illegitimate child born two years from the same date, should ever be entitled to parish assistance.... "The infant is, comparatively speaking, of little value to society, as others will immediately supply its place.»

- ***Richard von Coudenhove-Kalergi**, Austrian-Japanese politician, philosopher

1920 Kalergi PLAN, population replacement or white genocide, to exterminate the peoples of Europe with importing people from third world.

«The man of the future will be of mixed race. Today's races and classes will gradually disappear owing to the vanishing of space, time, and prejudice. The Eurasian-Negroid race of the future, similar in its appearance to the Ancient Egyptians, will replace the diversity of peoples with a diversity of individuals. [...]

Instead of destroying European Jewry, Europe, against its own will, refined and educated this people into a future leader-nation through this artificial selection process. No wonder that this people, that escaped Ghetto-Prison, developed into a spiritual nobility of Europe. Therefore a gracious Providence provided Europe with a new race of nobility by the Grace of Spirit. This happened at the moment when Europe's feudal aristocracy became dilapidated, and thanks to Jewish emancipation.»

Note: les politiciens cachent la véritable raison de ce remplacement, qui est de permettre et de faciliter l'instauration de leurs nouvelles lois liberticides et dictatoriales pour leur projet de contrôle de la population mondiale. En remplaçant la population par des migrants sans instruction venant de pays où ils sont déjà habitués aux régimes plus ou moins corrompus ou dictatoriaux et aux conditions de vie difficiles, les élites rencontreront moins d'opposition à leur agenda totalitaire. Certains politiques, en France, parlent déjà d'introduire le droit de vote pour les immigrés !... Cela n'a rien à voir avec le problème du faible taux de natalité dans les pays riches comme on essaie de le faire croire, sinon ils n'auraient pas empoisonné les enfants et les femmes enceintes de ces pays développés avec leurs pseudo "vaccins". Je ne suis pas contre le métissage ni contre le mélange des cultures mais quand le but est un projet criminel de domination et d'asservissement des peuples par une minorité d'élites milliardaires, il est de notre devoir d'informer le plus grand nombre y compris les immigrés et les populations du tiers monde, afin qu'ils ne tombent pas dans le piège. Il faut leur expliquer les sombres raisons de cette politique d'immigration débridée, car ils seront aussi les victimes du plan de dépopulation. Vous

verrez la preuve de leur mensonge dans ce document. On voit leur incohérence car d'un côté, ils parlent de la nécessité du contrôle des naissances et de la fécondité dans des pays développés comme les USA à cause de la "surpopulation", et de l'autre ils parlent du besoin de plus d'enfants dans ces mêmes pays pour l'économie et la prospérité du système social. S'il n'y a pas assez d'enfants dans un pays, il suffit d'adopter une politique d'aide aux familles pour les inciter à avoir plus d'enfants, comme la Hongrie envisage de le faire.

1944 - p62 [6] On population control «At present the population of the world is increasing at about 58,000 per diem. War, so far, has had no very great effect on this increase, which continued through each of the world wars.» - p115 [7] «There are three ways of securing a society that shall be stable as regards population. The first is that of birth control, the second is that of infanticide or really destructive wars, and the third that of general misery except for a powerful minority. All these methods have been practiced: the first, for example, by the Australian aborigines; the second by Aztecs, the Spartans and the rulers of Plato's Republic; the third in the world as some Western internationalists hope to make it and in Soviet Russia.» - p117 [8] On biological weapons as a means of population control «War, as I remarked a moment ago, has hitherto been disappointing in this respect, but perhaps bacteriological war may prove effective. If a Black Death could spread throughout the world once in every generation, survivors could procreate freely without making the world too full. There would be nothing in this to offend the conscience of the devout or to restrain the ambition of nationalists. The state of

affairs might be somewhat unpleasant, but what of it? Really high-minded people are indifferent to happiness, especially other people's.»

Vogt's most significant contribution was to link environmental and perceived overpopulation problems, warning in no uncertain terms that current trends would deliver future wars, hunger, disease, and civilizational collapse.

1966 May 5 «There is no human circumstance more tragic than the persisting existence of a harmful condition for which a remedy is readily available. Family planning, to relate population to world resources, is possible, practical and necessary. Unlike plagues of the dark ages or contemporary diseases we do not yet understand, the modern plague of overpopulation is soluble by means we have discovered and with resources we possess. What is lacking is not sufficient knowledge of the solution but universal consciousness of the gravity of the problem and education of the billions who are its victims.»

Planned Parenthood Federation of America inaugurated the PPFA **Margaret Sanger** Award to honor the woman who founded America's family planning movement. The PPFA Margaret Sanger Award is given annually to individuals of distinction in recognition of excellence and leadership in furthering reproductive health and reproductive rights. Dr. King's award was presented on May 5, 1966. The citation read:

- **Paul Ehrlich**, Stanford Professor, a former science adviser to president George W. Bush and the author of “The Population Bomb” <http://pinguet.free.fr/ehrllich68.pdf>

1968 «The battle to feed humanity is over. In the 1970s, the world will undergo famines. Hundreds of millions of people are going to starve to death in spite of any crash programs embarked upon now. Population control is the only answer»

«Solving the population problem is not going to solve the problems of racism... of sexism... of religious intolerance... of war... of gross economic inequality. But if you don’t solve the population problem, you’re not going to solve any of those problems. Whatever problem you’re interested in, you’re not going to solve it unless you also solve the population problem.» - The Population Bomb (1968)

*Note: Les guerres et les inégalités sociales sont créées volontairement par les élites dans un but lucratif, vente d'armes, bénéfice d'une main d'œuvre bon marché pour leurs industries polluantes ou dans un but de dépeuplement ou pour leurs intérêts stratégiques ou monopolisent les ressources minières ou énergétiques.

«A cancer is an uncontrolled multiplication of cells; the population explosion is an uncontrolled multiplication of people. We must shift our efforts from the treatment of the symptoms to the cutting out of the cancer. The operation will demand many apparently brutal and heartless decisions.»

«The first task is population control at home. How do we go about it? Many of my colleagues feel that some sort of compulsory birth regulation would be necessary to achieve such control. One plan often mentioned involves the addition of temporary sterilants to water supplies or staple food. Doses of the antidote would be carefully rationed by the government to produce the desired population size.» p.135

1970 «In ten years all important animal life in the sea will be extinct. Large areas of coastline will have to be evacuated because of the stench of dead fish.» -- Earth Day

1976 «Before 1985, mankind will enter a genuine age of scarcity . . . in which the accessible supplies of many key minerals will be facing depletion.»

2013 March 7th, «To our minds, the fundamental cure, reducing the scale of the human enterprise (including the size of the population) to keep its aggregate consumption within the carrying capacity of Earth is obvious but too much neglected or denied»

«Basically, then, there are only two kinds of solutions to the population problem. One is a ‘birth rate solution,’ in which we find ways to lower the birth rate. The other is a ‘death rate solution,’ in which ways to raise the death rate — war, famine, pestilence — find us.»

- **President Nixon** He called for a report to be given to him by what would become called the Rockefeller Commission Report. This commission consisted mostly of private sector individuals and organizations, and included men like Bernard Berelson (president of the Population Council) and Frederick Jaffe Memo (Vice-president of population for Planned Parenthood). The commission’s report was submitted to the President in 1972, but to the chagrin of the elites, he did not act on it—at least, not publicly, and not domestically.

1972 «This growth will produce serious challenges for our society. I believe that many of our present social problems may be related to the fact that we have had only fifty years in which to accommodate the second hundred million Americans. In

fact, since 1945 alone some 90 million babies have been born in this country. We have thus had to accommodate in a very few decades an adjustment to population growth which was once spread over centuries. And now it appears that we will have to provide for a third hundred million Americans in a period of just 30 years.»

1974 «La population mondiale doit être réduite de 50%» et «les personnes âgées sont des mangeurs inutiles» dans le "National Security Study Memorandum NSSN200", publié en 1974, et appelait à un dépeuplement massif du Tiers-Monde. Plan de réduction de la population déjà prévu en 1974 par Henry Kissinger. Voici un extrait de la page 77: «Dans d'autres pays prioritaires ou moins prioritaires, l'aide américaine est limitée soit par la nature des relations politiques ou diplomatiques avec ces pays (par exemple, l'Inde, l'Égypte), soit par le manque d'intérêt marqué du gouvernement pour les programmes de réduction de la population (par exemple, le Nigeria, l'Éthiopie, le Mexique, Brésil). Dans de tels cas, l'assistance technique et financière extérieure, si les pays le souhaitent, devrait provenir d'autres donateurs et/ou d'organisations privées et internationales (dont beaucoup reçoivent des contributions de l'AID). L'USG maintiendrait cependant un intérêt (par exemple par le biais des ambassades) dans les problèmes de population de ces pays et les programmes (le cas échéant) visant à réduire les taux de croissance démographique. De plus, en particulier dans le cas des pays hautement prioritaires auxquels l'aide américaine à la population est désormais limitée pour une raison ou une autre, nous devons être attentifs aux opportunités d'étendre nos efforts d'assistance et de démontrer à leurs dirigeants les conséquences d'une croissance démographique rapide et les avantages d'actions pour réduire la fertilité.»

1976 Kissinger indicated that «restricting some elements of freedom» was not the only grim aspect of the utopian idea of a «healthy» depopulated globe. In a follow-up document to NSSM 200 entitled, "First Annual Report on US International Population Policy" of US government and it outlines a psychological warfare strategy for overcoming opposition to the population control agenda and mentions methods which are «fine-tuned to the particular sensitivities of each of these countries,» to sell their depopulation agenda by avoiding the very term "birth control" in favor of "family planning" or "responsible parenthood" with emphasis placed on child spacing. It refers to many religions as "traditionalism." In the United States they want to adopt what can only be called a "feminist" agenda so women work instead of having children and raising them. But they also say jobs are going to disappear with more and more robotics.

-***John P. Holdren** (The President Obama's top science czar and technology advisor)

1977 «The Planetary Regime might be given responsibility for determining the optimum population for the world and for each region and for arbitrating various countries shares within their regional limits. Control of population size might remain the responsibility of each government, but the Regime would have some power to enforce the agreed limits.» From a book he helped write. 'Ecoscience Population, Resources, Environment'.

He advocated the formation of a "planetary regime" that would use a "global police force" to enforce totalitarian measures of population control, including forced abortions, mass sterilization programs conducted via the food and water supply, as well as mandatory bodily implants that would prevent couples from having children.

1991 «....To cause by means of limited wars in the advanced countries, by means of starvation and diseases in the Third World countries, the death of three billion people by the year 2050, people they call 'useless eaters.' The Committee of 300 (Illuminati) commissioned Cyrus Vance to write a paper on this subject of how to bring about such genocide. The paper was produced under the title "Global 2000 Report" by **Dr. Gerald Barney** and was accepted and approved for action by former President James Earl Carter, and Edwin Muskie, then Secretary of State, for and on behalf of the US Government. Under the terms of the Global 2000 Report, the population of the US is to be reduced by 100 million by the year of 2050."

Targets of the Illuminati and the Committee of 300, «At least 4 billion "useless eaters" shall be eliminated by the year 2050 by means of limited wars, organized epidemics of fatal rapid-acting diseases and starvation. Energy, food and water shall be kept at subsistence levels for the non-elite, start-ing with the White populations of Western Europe and North America and then spreading to other races. The population of Canada, Western Europe and the United States will be decimated more rapidly than on other continents, until the world's population reaches a manageable level of 1 billion, of which 500 million will consist of Chinese and Japanese races, selected because they are people who have been regimented for centuries and who are accustomed to obeying authority without question.»

1998 September 27th-October 1st Among the conference participants at "The State of the World Forum" at Nob Hill at the luxurious Fairmont Hotel, San Francisco:

1998 «through culture and education and within the framework of laws we shall have to address the problem of controlling the world's population.»

- **Willis Harman**'s essay grapples with the "dilemma.":

1998 «In the economy-dominated world, as the outspoken anthropologist Margaret Mead once put it bluntly, 'The unadorned truth is that we do not need now, and will not need later, much of the marginal labor -- the very young, the very old, the very uneducated, and the very stupid'».

- **Sam Keen**, philosopher/author,

1998 «there was very strong agreement that religious institutions have to take primary responsibility for the population explosion. We must speak far more clearly about sexuality, about contraception, about abortion, about the values that control the population, because the ecological crisis, in short, is the population crisis. Cut the [world's] population by 90 percent and there aren't enough people left to do a great deal of ecological damage.»

- **David Willey**, chairman of "Optimum Population Trust" (OPT) .

2000 An Optimum World Population: «consider just two criteria (economies of scale and technological innovation) in order to ensure that the optimum (one to two billion) has not fallen below the minimum (half to one billion)»

- **Eric R. Pianka**, professor of Biology at the University of Texas at Austin recommending solutions for reducing the world's population to an audience on population control...

2006 «War and famine would not do. Instead, disease offered the most efficient and fastest way to kill the billions that must soon die if the population crisis is to be solved. AIDS is not an efficient killer because it is too slow. My favorite candidate for eliminating 90 percent of the world's population is airborne Ebola (Ebola Reston), because it is both highly lethal and it kills in days, instead of years. «We've got airborne diseases with 90 percent mortality in humans. Killing humans. Think about that. You know, the bird flu's good, too. For everyone who survives, he will have to bury nine.»

He told a meeting of the Texas Academy of Science.

2010 April «The only known solution to ecological overshoot is to decelerate our population growth faster than it's decelerating now and eventually reverse it — at the same time we slow and eventually reverse the rate at which we consume the planet's resources.

Success in these twin endeavors will crack our most pressing global issues: climate change, food scarcity, water supplies, immigration, health care, biodiversity loss, even war. On one front, we've already made unprecedented strides, reducing global fertility from an average 4.92 children per woman in 1950 to 2.56 today — an accomplishment of trial and sometimes brutally coercive error, but also a result of one woman at a time making her individual choices. The speed of this childbearing revolution, swimming hard against biological programming, rates as perhaps our greatest collective feat to date.»

Prime Minister Indira Gandhi and her son Sanjay used state-of-emergency powers to force a dramatic increase in sterilizations. From 1976 to 1977 the number of operations tripled, to more than eight million. Over six million of those were vasectomies. Family planning workers were pressured to meet quotas; in a few states, sterilization became a condition for receiving new housing or other government benefits. In some cases the police simply rounded up poor people and hauled them to sterilization camps.»

<https://wires.onlinelibrary.wiley.com/doi/pdf/10.1002/wcc.153>

-***Bill Gates**, once again

2012 Feb 2nd, «Well, the population growth issue, at the global level, is not that daunting. That is, the population, percentage-wise, is growing slower today than in the past. And so it will actually peak out. The problem is that the population is growing the fastest where people are less able to deal with it. So it's in the very poorest places that you're going to have a tripling in population by 2050. And so their ability to feed, educate, provide jobs, stability, protect the environment in those locations means, they're faced with an almost impossible problem, Northern Nigeria, Yemen, Chad. And so what we need to do is take this aid generosity and this innovation and go into those places— offer the women better tools, where they want to space birthing or have a smaller family size, and improve health, because it's amazingly as children survive, parents feel like they'll have enough kids to support them in their old age. And so they choose to have less children. Niger, right now, it's still seven children per family. Whereas in the richer countries you're often at a stable point of which is 2.1 or even less. And so it's really an acute problem in a certain number of places. And we've got to make sure that we help out with the tools now so that they don't have an impossible situation later.»

Note: Bill Gates s' imagine que, grâce à son programme de "soins de santé", qui diminuerait la mortalité infantile, les parents ne feront plus 7 enfants pour subvenir aux besoins de leurs vieux jours. Est-il idiot ou bien nous prend-il pour des idiots avec des arguments aussi peu scientifiques ? Il parle des pays riches avec 2 enfants par famille, il sait donc bien que le nombre d'enfants est inversement proportionnel au niveau de vie. Il devrait plutôt œuvrer pour une augmentation du niveau de vie de ces familles. De plus, dans ces pays, les familles sont nombreuses du fait de leur culture ou de leur religion, par le besoin d'aide dans les tâches quotidiennes, ainsi que le besoin de rentrées financières additionnelles par les petits boulots des enfants. Les arguments simplistes de Bill Gates trahissent ses réelles intentions criminelles.

Au chapitre "Historical Perspectives on Population Growth" ils affirment que les "medical advances" permettent une stabilité de la démographie, alors que sur le même site mais dans un article différent ils disent le contraire, à savoir que les soins médicaux seraient responsables de l'augmentation de la population en permettant aux gens de vivre pendant de nombreuses années et qu'ils augmentent également le taux de survie chez les nouveaux-nés, dans le chapitre "Decrease In Mortality"

That's a difficult thing for liberals like me to talk about, lest we wind up looking like death-panel-loving, kill-your-grandma-and-your-precious-baby storm troopers. Yet a fetus can be a human life without having the same rights as the woman in whose body it resides.»

- **Christiana Figueres**, Executive Secretary, United Nations Framework Convention on Climate Change In conversation with Greg Dalton, Founder and Host, Climate One

2013 Apr 17th, «...we really should make every effort to change the numbers because we are already, today, already exceeding or a current the planet carrying capacity, today to say nothing of adding more population that is going to really overextend our capacity. So, yes, we should do everything possible but we cannot fall into the very simplistic opinion of saying just by curtailing population then we've solved the problem, it is not an either/or it is an and also.»

Pour se donner bonne impression, le Congrès américain demande au président d'interdire les chemtrails et autres types d'armes visant le peuple américain. Mais ne vous faites pas d'illusions, ce n'est qu'un texte, et au bout du compte, ce sont les élites qui décident et mettent en application leur plan de dépopulation. Les chemtrails utilisés par les élites ne sont pas destinés à réguler le climat comme certains "experts" veulent nous le faire croire; ils visent principalement à détruire les terres agricoles et la santé des populations avec diverses nanoparticules, aluminium, baryum et autres produits chimiques. Ainsi qu' à créer des intempéries, des assèchements ou des inondations de certaines régions à des fins militaires ou politiques.

Mais des études indépendantes de "Cancer Research UK" parlent d'une augmentation de 30 %, soit une personne sur 100 donc 30 fois moins que Albert Bourla! Que sait-il que nous ignorons ?... 30% d'augmentation, c'est déjà beaucoup, cela signifie que de nouveaux facteurs anormaux interviennent et interviendront dans la vie des gens; si vous lisez ce document, vous saurez lesquels.

But independent studies speak of an increase of 30%, or one in 100 people. What does he know that we don't know? 30% increase is already a lot, it means that new factors are intervening in people's lives, if you read this document, you will be able to guess which ones.

*Mexico, Philippines and Nicaragua,

1993 Although most tetanus is contracted by men, the **World Health Organization (WHO)** gives millions of tetanus shots in Mexico and the Philippines to only women between the ages of 15 and 45, and in Nicaragua to women between the ages of 12 and 49. Each of these vaccines have been found to be laced with hormones hCG which can cause long-term sterility in women. The Center for Disease Control has set these ages as the reproductive years for females. It was also strange because human chorionic gonadotropin is a natural hormone needed to sustain pregnancy. However, in combination with the carrier tetanus toxin, it stimulates the formation of antibodies against human chorionic gonadotropin, leading to the fact that the woman is unable to sustain a pregnancy - a sort of hidden abortion. <http://newsnet.fr/33840> <https://web.archive.org/web/20200926002806/http://newsnet.fr/33840>

Ils ont supprimé le tweet et leur page sur leur site officiel le 17 novembre 2020 en raison de réactions négatives. Mais ne vous inquiétez pas, ils n'ont pas supprimé leur projet. * SOLUTION: “Plan pour la liberté et la souveraineté des Peuples”

Pour savoir quoi faire, il faut déjà savoir ce qui pousse les élites vers cet Agenda 21 (ou “Vision”). Ils veulent l'argent et le pouvoir. Ils ont le pouvoir grâce à l'argent que les peuples du monde leur donnent avec la société de consommation.

Grâce à cet argent ils peuvent corrompre les politiciens et financer des milices (qu'ils appellent police ou CRS) et des armées pour les protéger.

Donc, si vous voulez faire échouer leur plan, les peuples du monde entier doivent cesser de les enrichir, pas seulement un pays mais tous les pays. Sans le peuple, ils ne sont rien. C'est le peuple qui a le pouvoir, pas eux!

La solution que je nommerais "Plan pour la liberté  et la souveraineté des peuples" est donc une grève mondiale de la consommation, coordonnée simultanément dans tous les pays du monde, afin que l'opération soit la plus courte possible et éviter que les gens ordinaires ayant des petits commerces se retrouvent sans apport financier trop longtemps. Pour cela, il faut contacter tous les lanceurs d'alerte dans chaque pays afin qu'ils relaient eux-mêmes l'information sur leurs chaînes et définissent la date commune à travers le monde. L'opération devrait commencer une fois que suffisamment de personnes aient été informées à travers le monde. Avant l'opération, chacun devra retirer à la banque suffisamment d'argent pour payer la nourriture pendant quelques semaines. L'opération ne durera pas longtemps si elle est effectuée correctement et par une grande partie de la population mondiale simultanément.

Au bout de quelques jours, la conséquence sera un effondrement des marchés boursiers du monde entier avec d'énormes pertes financières dans toutes les institutions bancaires criminelles, ainsi que des entreprises comme Blackrock, Vanguard... (Français + English <https://odysee.com/@AmiDesPeuplesPremiers:d/Monopole-Un-aperçu-du-Great-Reset:d>) provoquant ainsi d'énormes pertes parmi les élites et les actionnaires milliardaires. Les gros industriels vont ensuite se retourner contre les élites pour faire pression.

Ainsi pendant l'opération, il faudrait boycotter à 100% :

- les réseaux sociaux, Facebook, Instagram, Messenger, WhatsApp, Youtube, TikTok, Instagram, Google search... Ces réseaux gagnent de l'argent grâce à la publicité et les sociétés publicitaires paient en fonction du temps que les utilisateurs passent sur ces réseaux. Ils travaillent aussi avec l'élite dans leur plan criminel. Ces entreprises censurent les informations qui peuvent réveiller la population. (Exemple: ces entreprises ont censuré et continuent de censurer automatiquement les témoignages des familles lorsqu'elles perdent un membre de leur famille immédiatement après avoir reçu l'injection de covid-19 et ont censuré et continuent de censurer leurs utilisateurs lorsqu'ils parlent des problèmes de santé qu'ils viennent d'avoir après avoir reçu l'injection du covid-19, voir page 30, <https://odysee.com/@injectioncovidworldgenocide-inthevaccinecenter:3?view=content>).

En attendant le début de l'opération, vous pouvez dès à présent boycotter ses réseaux mais gardez les uniquement pour poster des informations tel que ce document jusqu'à ils bloquent votre compte ou qu'ils le clôturent mais avant cela assurez vous qu'un maximum de vos amis vous on rejoint sur vos nouveaux réseaux <https://vk.com>, X (Twitter), Telegram <https://odysee.com>, (<https://rumble.com> avec VPN), <https://bitchute.com>, <https://proton.me/mail>

- Facebook peut être remplacé par <https://vk.com> , X (Twitter) ou Telegram (n'oubliez pas d'inviter et d'envoyer tous vos amis Facebook sur vos nouveaux comptes <https://vk.com> , X (Twitter) ou Telegram)
- Pour vos recherches sur Internet : la recherche Google peut être remplacée par <https://search.brave.com>
- Google Chrome peut être remplacé par le navigateur Brave, installez-le à partir d'ici: <https://brave.com/>
- Youtube et Tik Tok peuvent être remplacés par <https://odysee.com> ou <https://rumble.com> ou <https://bitchute.com>

- la télévision (Idem que pour les réseaux sociaux à propos de la publicité). Restez informés sur internet avec votre ordinateur personnel à domicile, utilisez le navigateur Brave (<https://brave.com/>) qui bloque automatiquement les publicités et amusez-vous en famille en faisant du sport ou en jouant à des jeux de société ou en lisant des livres.

- Amazon et d'autres groupes de vente en ligne. Ces sociétés travaillent aussi avec les élites pour ce contrôle de l'humanité. La suppression des petits commerces de ville leur permettra de mieux contrôler les achats par internet. Ces Sociétés ont eu des profits énormes dû aux confinements en 2020 pendant que les petits commerces déposaient le bilan. <https://www.lebigdata.fr/gafam-tout-savoir> + <https://www.latribune.fr/technos-medias/google-apple-amazon-microsoft-les-gafam-a-l-assaut-du-marche-de-la-s-ante-americain-883865.html> + <https://www.cairn.info/revue-les-enjeux-de-l-information-et-de-la-communication-2016-2-page-253.htm>

- le made in China (quasiment tout l'électronique est fabriqué en Chine y compris vos iPhones) (<https://t.me/maitreXOFFICIEL/806> + **"Tous surveillés 7 milliards de suspects":** 🇫🇷 Français https://vk.com/wall614157557_3690 + 🇫🇷 Français <https://rumble.com/vhn5nj-la-capsule-50-22-contrle-social-la-chinoise.html> + 🇫🇷 Français https://vk.com/wall614157557_6430 + 🇫🇷 Français https://vk.com/wall614157557_6627 + https://vk.com/wall614157557_8056

- les appareils de traçage tels que les smartphones (sauf les petits téléphones 2G et les téléphones fixes)

- les véhicules thermiques (taxes sur les carburants) ou électriques (factures d'électricité), sauf cas de force majeure. Ceux qui doivent aller travailler loin de chez eux et qui habitent en campagne devront faire du covoiturage(<https://>) et les travailleurs qui habitent en ville devront prendre les transports en commun. Pendant cette période, préférez des balades à vélo en forêt en famille.

- tout ce qui consomme de l'électricité pour ne pas donner votre argent au gouvernement avec des factures sans cesse croissantes.

- Tous les biens de consommation autres que la nourriture, locale de préférence,

- La restauration rapide !

- les supermarchés. Rendez-vous uniquement dans les petits magasins du centre-ville ou à proximité de chez vous. Allez de préférence sur les marchés ou achetez directement auprès des producteurs.

L'opération devrait être menée jusqu'à l'exécution des revendications : la principale serait l'arrestation par la "police" ou l'"armée" des hommes politiques impliqués et des élites dans le WEF et de toutes les personnes impliquées dans la pandémie covid-19.

Alors commençons maintenant à envoyer ce plan de boycott à tous les lanceurs d'alerte du monde entier, pour que la population retrouve liberté et souveraineté.

Pour aider à convaincre les gens indécis de rejoindre l'action, vous pouvez leur envoyer le document "DÉPOPULATION" ci-dessus, qui est un des plus complets en la matière avec les sources. Les personnes trop proches de leur confort matériel doivent comprendre qu'il s'agit d'une opération de courte durée, peut-être un mois seulement, si elle est bien coordonnée, et que leur vie en sera largement améliorée.

Cette opération a l'avantage d'être pacifique. Les gouvernements et les élites criminelles ne pourront rien y faire. Aucun risque de recevoir des coups de matraque sur la tête ou des gaz lacrymogènes dans les yeux. La police ne va pas frapper à la porte de tous les foyers pour forcer les gens à consommer.

L'autre avantage est qu'elle peut-être anonyme. Personne ne pourra savoir si vous consommez ou non. Donc le gouvernement ne pourra pas diviser le peuple, cherchant à créer une guerre civile, comme pour les manifestations de rue ou les blocages. Vous avez certainement compris qu'une de leur méthode, c'est de régner grâce au chaos.

Opération urgente ! N'oublions pas qu'un des objectifs du WEF est de dépouiller les gens de tous leurs biens. Et qui récupérera vos biens ? L'élite.

Et méfiez-vous des gens qui vous diront : "Oui, mais cette opération va encore porter atteinte à l'économie et aggraver la situation." Ce sont soit des trolls, soit des idiots qui ne comprennent pas que d'une manière ou d'une autre nous serons condamnés à l'esclavage ou l'empoisonnement par les moyens cités dans ce document.

Avec cette opération de courte durée, nous pouvons porter un coup dur à l'élite criminelle et, pourquoi pas, la faire tomber. Comme disait Macron, « nous sommes en guerre », la guerre des élites criminelles contre les peuples.

En attendant que la date de l'opération soit fixée par les lanceurs d'alerte, on peut s'y préparer en s'approvisionnant en choses difficiles à transporter sans voiture comme de l'eau minérale et des conserves, en faisant tourner les stocks pour éviter de dépasser les dates d'expiration, et une réserve d'argent en espèces ainsi que de métaux précieux pour les plus aisés...

Maintenant la balle est dans notre camp, à nous de décider:

soit nous acceptons de nous priver de notre confort matériel pendant peut-être un mois, ou moins si suffisamment de personnes exécutent le plan en même temps dans le monde, soit nous ne voulons pas nous passer de voiture, smartphone, compte Facebook, etc... pendant cette courte période et alors il faudra s'attendre à vivre par la suite la pire dictature de l'histoire de l'humanité, avec l'obligation de se faire injecter régulièrement des produits toxiques pour les prochaines pandémies créées par les élites

Et si l'opération devait durer plus longtemps que prévu, il faudra certainement un système d'entraide pour les plus démunis qui n'auront plus, momentanément, d'entrée financière.

- Bertrand Russell (1872-1970), Philosopher

«I do not pretend that birth control is the only way in which population can be kept from increasing. There are others, which, one must suppose, opponents of birth control would prefer. War, as I remarked a moment ago, has hitherto been disappointing in this respect, but perhaps bacteriological war may prove more effective. If a Black Death could be spread throughout the world once in every generation survivors could procreate freely without making the world too full. There would be nothing in this to offend the consciences of the devout or to restrain the ambitions of nationalists. The state of affairs might be somewhat unpleasant, but what of that? Really high-minded people are indifferent to happiness, especially other people's.»

- Jonathon Porritt

«I am unapologetic about asking people to connect up their own responsibility for their total environmental footprint and how they decide to procreate and how many children they think are appropriate.»

“Population raises all these questions about religion, about culture, about male dominance in the world — and (people) get very uncomfortable about that.»

- Jawaharal Nehru, Indian Prime Minister 1889-1964

«Some of these (Asian) countries, like India, far from needing a bigger population, would be better off with fewer people.»

- Martin Nowak

Many problems that challenge us today can be traced back to a profound tension between what is good and desirable for society as a whole and what is good and desirable for an individual. That conflict can be found in global problems such as climate change, pollution, resource depletion, poverty, hunger, and overpopulation.

- Noam Chomsky

You cannot control your own population by force, but it can be distracted by consumption.

- Gore Vidal, writer and intellectual, 1925-2012

«Think of the earth as a living organism that is being attacked by billions of bacteria whose numbers double every 40 years. Either the host dies, or the virus dies, or both die.»

- Spike Milligan, Comedian 1918-2002

«Overpopulation is a serious issue. The human race will soon have to get used to 12 in a room.»

- John Davis, contends Earth First! Journal editor.

«Human beings, as a species, have no more value than slugs»

- Paul Watson, a founder of Greenpeace and a director of the Sierra Club

«Don't bring any more humans into being» He believes that the lives of whales are more important than the lives of humans. He has called humans «the AIDS of the earth,» declared that «earthworms are far more valuable than people,» and believes that world population should be reduced to less than one billion : «We need to radically and intelligently reduce human populations to fewer than one billion. «We need to radically and intelligently reduce human populations to fewer than one billion [...] Curing a body of cancer requires radical and invasive therapy, and therefore, curing the biosphere of the human virus will also require a radical and invasive approach [...]».

- Dave Forman, Sierra Club, co-founder of Earth First

«Phasing out the human race will solve every problem on earth, social and environmental»

«I believe that human overpopulation is the fundamental problem on Earth Today»

«We humans have become a disease, the Humanpox.»

- Kenneth Boulding, originator of the "Spaceship Earth" concept (as quoted by William Tucker in Progress and Privilege, 1982)

«The right to have children should be a marketable commodity, bought and traded by individuals but absolutely limited by the state.»

- Helen Caldicott, Union of Concerned Scientists

«Free Enterprise really means rich people get richer. They have the freedom to exploit and psychologically rape their fellow human beings in the process . . . Capitalism is destroying the earth».

- John Davis, editor of Earth First! Journal

«I suspect that eradicating small pox was wrong. It played an important part in balancing ecosystems.»

- David Foreman, the co-founder of Earth First! and member of the Club of Rome.

«We advocate biodiversity for biodiversity's sake. It may take our extinction to set things straight»

«We humans have become a disease, the Humanpox.»

«World population needs to be decreased by 50%»

«The Aids epidemic, rather than being a scourge, is a welcome development in the inevitable reduction of human population... If [it] didn't exist, radical environmentalists would have to invent [it].»

«If radical environmentalists were to invent a disease to bring human populations back to sanity, it would probably be something like AIDS»

- Pope Francis,

«Some people think that — excuse my expression here — that in order to be good Catholics we have to be like rabbits. No. Parenthood is about being responsible. This is clear.»

-Tenzin Gyatso, 14th Dalai Lama 1950 to present

«The growth in population is very much bound up with poverty, and in turn poverty plunders the Earth. When human groups are dying of hunger, they eat everything: grass, insects, everything. They cut down the trees, they leave the land dry and bare. All other concerns vanish. That's why in the next 30 years the problems we call 'environmental' will be the hardest that humanity has to face.»

- Peter Gwynne, Newsweek 1976

«This [cooling] trend will reduce agricultural productivity for the rest of the century.»

- Lowell Ponte "The Cooling",

1976 «This cooling has already killed hundreds of thousands of people. If it continues and no strong action is taken, it will cause world famine, world chaos and world war, and this could all come about before the year 2000.»

- David Brower, first Executive Director of the Sierra Club....

«Childbearing [should be] a punishable crime against society, unless the parents hold a government license ... All potential parents [should be] required to use contraceptive chemicals, the government issuing antidotes to citizens chosen for childbearing.»

- Club of Rome,

«... the resultant ideal sustainable population is hence more than 500 million but less than one billion.» in Goals for Mankind

- Theodore Roosevelt

«I wish very much that the wrong people could be prevented entirely from breeding»

- Francis Galton

Englishmen Francis Galton to describe the "science" of bettering human stock and the elimination of unwanted characteristics... and individuals. Galton proposed societal intervention for the furtherance of «racial quality,» maintaining that «Jews are specialized for a parasitical existence upon other nations» and that «except by sterilization I cannot yet see any way of checking the produce of the unfit who are allowed their liberty and are below the reach of moral control.»

- UNESCO ITS PURPOSE AND ITS PHILOSOPHY by the founding Director-General of UNESCO Sir Julian Huxley. This is from the original founding document of the UNESCO, THE UNITED NATIONS EDUCATIONAL, SCIENTIFIC AND CULTURAL ORGANIZATION, 1946

«Thus even though it is quite true that any radical eugenic policy will be for many years politically and psychologically impossible, it will be important for UNESCO to see that the eugenic problem is examined... and that the public mind is informed... so that much that is now unthinkable may at least become thinkable»

- Francis Crick

«we have to take away from humans in the long run their reproductive autonomy as the only way to guarantee the advancement of mankind.»

- Paul Ehrlich, The Population Bomb

«The first task is population control at home. How do we go about it? Many of my colleagues feel that some sort of compulsory birth regulation would be necessary to achieve such control. One plan often mentioned involves the addition of temporary sterilants to water supplies or staple food. Doses of the antidote would be carefully rationed by the government to produce the desired population size.»

- Joseph Stalin

«Death is the solution to all problems. No man - no problem.»

- Jeremy Rifkin

«We are entering a new phase in human history - one in which fewer and fewer workers will be needed to produce the goods and services for the global population.»

- Alexander Graham Bell

He advocated passing laws (with success in some states) for compulsory sterilization of people deemed to be, as Bell called them, a «defective variety of the human race.»

- Julian Huxley in "Eugenics and Society" (The Galton Lecture given to the Eugenics Society),

«Once the full implications of evolutionary biology are grasped, eugenics will inevitably become part of the religion of the future, or of whatever complex of sentiments may in the future take the place of organized religion»

- Dr Cornelius Rhoads (1898-1959) | Rockefeller Institute, Rhoads also headed two large chemical warfare projects, had a seat on the AEC (Atomic Energy Commission), and he headed the Sloan-Kettering Institute for Cancer Research

«The Puerto Ricans are the dirtiest, laziest, most dangerous and thievish race of men ever inhabiting this sphere... I have done my best to further the process of extermination by killing off eight and transplanting cancer into several more.»

- Adolf Hitler,

«I have studied with great interest,» he told a fellow Nazi, «the laws of several American states concerning prevention of reproduction by people whose progeny would, in all probability, be of no value or be injurious to the racial stock.»

- Oliver Wendell Holmes wrote, language that closely mirrored that of Hitler's Mein Kampf, the U.S. Supreme Court heard an appeal of Virginia's decision in Buck v. Bell

1927 «The principle that sustains compulsory vaccination is broad enough to cover cutting the Fallopian tubes,» --Years later, the Nazis at the Nuremberg trials quoted Holmes' words in their own defense.--Justice Oliver Wendell Holmes - writing the majority opinion in Buck v. Bell - stated: «It is better for all the world, if instead of waiting to execute degenerate offspring for crime or to let them starve for their imbecility, society can prevent those who are manifestly unfit from continuing their kind»

- Club of Rome, Mankind at the Turning Point

«The Earth has cancer and the cancer is Man.»

- Sir James Lovelock, Healing Gaia

«Humans on the Earth behave in some ways like a pathogenic micro-organism, or like the cells of a tumor.»

- Sir James Lovelock, BBC Interview

«The big threat to the planet is people: there are too many, doing too well economically and burning too much oil.»

- Richard Branson:

«The truth is this: the Earth cannot provide enough food and fresh water for 10 billion people, never mind homes, never mind roads, hospitals and schools.»

- Christopher Manes, Earth First!

«The extinction of the human species may not only be inevitable but a good thing.»

- Kofi Annan, UN Secretary-General from 1997-2006

«The idea that population growth guarantees a better life — financially or otherwise — is a myth that only those who sell nappies, prams and the like have any right to believe.»

- Thoraya Ahmed Obaid, UN Under-Secretary-General from 2000-2010

«We cannot confront the massive challenges of poverty, hunger, disease and environmental destruction unless we address issues of population and reproductive health.»

- Gloria Steinem,

«Everybody with a womb doesn't have to have a child any more than everybody with vocal cords has to be an opera singer.»

- Jane Goodall:

«It's our population growth that underlies just about every single one of the problems that we've inflicted on the planet. If there were just a few of us, then the nasty things we do wouldn't really matter and Mother Nature would take care of it — but there are so many of us.»

- Kate Humble, Television personality

«There are far too many people in the world...I think one of the most environmentally friendly things you can do is not to have children.»

- Ashley Judd,

«It's unconscionable to breed, with the number of children who are starving to death in impoverished countries.»

- Charles Darwin,

«With savages, the weak in body or mind are soon eliminated; and those that survive commonly exhibit a vigorous state of health. We civilized men, on the other hand, do our utmost to check the process of elimination; we build asylums for the imbecile, the maimed, and the sick; we institute poor-laws; and our medical men exert their utmost skill to save the life of every one to the last moment. There is reason to believe that vaccination has preserved thousands, who from a weak constitution would formerly have succumbed to small-pox. Thus the weak members of civilized societies propagate their kind. No one who has attended to the breeding of domestic animals will doubt that this must be highly injurious to the race of man. It is surprising how soon a want of care, or care wrongly directed, leads to the degeneration of a domestic race; but excepting in the case of man himself, hardly any one is so ignorant as to allow his worst animals to breed.»

- Barbara Marx Hubbard, Psychologist, member of Task Force Delta; a United States Army think tank. She was an American futurist, in *The Revelation: Our Crisis is a Birth* (Book of Co-Creation):

1993 Sept 1st «One-fourth of humanity must be eliminated from the social body. We are in charge of God's selection process for planet earth. He selects, we destroy. We are the riders of the pale horse, Death.»

- Aldous Huxley, lecture at the California Medical School,

1961 «There will be, in the next generation or so, a pharmacological method of making people love their servitude, and producing dictatorship without tears, so to speak, producing a kind of painless concentration camp for entire societies, so that people will in fact have their liberties taken away from them, but will rather enjoy it, because they will be distracted from any desire to rebel by propaganda or brainwashing, or brainwashing enhanced by pharmacological methods. And this seems to be the final revolution.»

- Alexander King, Bertrand Schneider, Founder and Secretary, respectively, *The Club of Rome, The First Global Revolution*, pgs 104-105, 1991 - (The real enemies are the elites who intentionally create the calamities that Bertrant Schneider wrote).

«In searching for a new enemy to unite us, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like would fit the bill.... But in designating them as the enemy, we fall into the trap of mistaking symptoms for causes. All these dangers are caused by human intervention and it is only through changed attitudes and behavior that they can be overcome. The real enemy, then, is humanity itself.»

- Dr. Henry Kissinger, Bilderberg Conference, Evians, France, 1991

«Today, America would be outraged if U.N. troops entered Los Angeles to restore order. Tomorrow they will be grateful! This is especially true if they were told that there were an outside threat from beyond, whether real or promulgated, that threatened our very existence. It is then that all peoples of the world will plead to deliver them from this evil. The one thing every man fears is the unknown. When presented with this scenario, individual rights will be willingly relinquished for the guarantee of their well-being granted to them by the World Government.»

- Rocky Mountain News, "State prepares for bioterrorism Executive orders give governor additional powers", February 8, 2003

«The state of Colorado could seize antibiotics, cremate disease-ridden corpses and, under extreme circumstances, dig mass graves under executive orders...Infected corpses might have to be isolated at temporary morgues to prevent the spread of disease, Estock said. In certain situations, mass cremations or burials might be required. 'I don't want to come across as saying the state's going to make this decision to do mass cremations and ruin the lives of families. That's certainly not the intent,' Estock said. 'But it (the executive order) just gives us maximum flexibility.' »

- Merton Lambert, former spokesman for the Rockefeller Foundation - Harpeth Journal,
1962 December 18, '62 «The world has a cancer, and that cancer is man.»

- David Attenborough:

«Instead of controlling the environment for the benefit of the population, maybe we should control the population to ensure the survival of our environment». ? or

«Instead of controlling the environment for the benefit of the population, perhaps it's time we [should] control the population to allow the survival of the environment.» ?

«The human population can no longer be allowed to grow in the same old uncontrolled way. If we do not take charge of our population size, then nature will do it for us and it is the poor people of the world who will suffer most.»

«All environmental problems become harder — and ultimately impossible — to solve with ever more people.»

«Anyone who thinks you can have infinite growth in a finite environment is either a madman or an economist.»

- Francis Galton, first cousin and associate of Charles Darwin, circa 1883

«Eugenics is the study of the agencies under social control that may improve or impair the racial qualities of future generations either physically or mentally.»

- Madison Grant, from The Passing of the Great Race, co-founder American Eugenics Society

«[Sterilization could] be applied to an ever widening circle of social discards, beginning always with the criminal, the diseased and the insane, and extending gradually to types which may be called weaklings rather than defectives, and perhaps ultimately to worthless race types.»

- Frederick Osborn in "Galton and Mid Century Eugenics" Galton Lecture 1956, in Eugenics Review, vol. 48, 1,
1956 «The very word eugenics is in disrepute in some quarters ... We must ask ourselves, what have we done wrong?»

«I think we have failed to take into account a trait which is almost universal and is very deep in human nature. People simply are not willing to accept the idea that the genetic base on which their character was formed is inferior and should not be repeated in the next generation. We have asked whole groups of people to accept this idea and we have asked individuals to accept it. They have constantly refused and we have all but killed the eugenic movement ... they won't accept the idea that they are in general second rate. We must rely on other motivation. ... it is surely possible to build a system of voluntary unconscious selection. But the reasons advanced must be generally acceptable reasons. Let's stop telling anyone that they have a generally inferior genetic quality, for they will never agree. Let's base our proposals on the desirability of having children born in homes where they will get affectionate and responsible care, and perhaps our proposals will be accepted.»

- Elsie Drogoski in "The Pivot of Civilization" quoted in Margaret Sanger (founder of Planned Parenthood).

«Those least fit to carry on the race are increasing most rapidly ... Funds that should be used to raise the standard of our civilization are diverted to maintenance of those who should never have been born.»

- Tom Cruise, Optimum Population Trust
